BONK OF AMERICA

Bonk Of America ($BONKFA) originated as a fair launch on Solana. It is the meme-utility token that powers our "RAID2EARN" business model.

Our Raiding Reward system developed in-house is called "ATM Bot", a tongue-in-cheek play on ATMs spitting out cash, just like our bot is spitting out rewards tokens. Initially built for Solana, BONKFA has expanded to BASE and TON blockchains. This expansion was key to capturing a multi-chain presence. The project is built to boost engagement in communities and reward holders with their native tokens for participation and tasks.

Committed to transparency and fairness, BONKFA's profit-sharing program is key component of our business model across all block-chains. Our roadmap includes further expansions to future chains and social media platforms. We aim to set new standards in the block-chain and Ai industries.

COMMUNITY

OPERATIONS
Key group of people who invest time and knowledge in the project. 12 members who dedicate years of experience in crypto, coding & business development. Operators are doxxed business owners and Entrepreneurs. Team is running the BONKFA community utilizing secure multisigs and voting

DEVS
No project is successful without the three ockstar devs. And we have a killer devs team experiences in token contracts, web3, Ai on Solana and Ethereum chains

RAIDERS
Who is a "Raider"? Raiders are community members who help us get the word out and go out to all social platforms to post, tweet, like & share the content of the community. Our Army!

CHADS
All members of our community who just like the vibes in our telegram group and come hang our and help raiding or discuss rumors and ideas. Everyone is welcome

KEY FEATURES

UTILITY
Pioneering the raiding rewards system in crypto space. Our ATM bot is a first of it's kind, built to reward for engagement on Twitter. Future use on Youtube, TikTok.

MEME
Bonk Of America pokes fun of the central-ized banking system. It is also a play on words referring to the Bonk token

TECHNOLOGY
Our tools and utilities developed in house are powered by the latest developments of Open Ai and Chat GPT enhancing engagement

GOALS
Our long term model is profit share from the bot and ad revenue streams to the $BONKFA token holders. Project is operated as a venture with solid foundations of team, tech & revenue
